Experience

10/2016 - 10/2017

Key Account / Project Manager

GROWTH DYNAMICS
• Coordinated overall development team to build new website using Joomla. *www.gdicorp.com*
• Worked with vendors and led internal team to produce the new company overview video. *https://bit.ly/2v4ULYD*
• Demonstrated HTML skills writing blog posts for the company website. *www.gdicorp.com/blog.html*

02/2015 - 10/2016

Product Owner

PERFORMANCE GAINS
• Project: Microsoft Dynamics CRM, Dynamics Marketing, and Power BI- Directed project that included multiple vendors and creating API paths to connect legacy systems to the new CRM. Wrote HTML code for sales person view interface.
• Liaison to Microsoft Gold Partner(RSM) for CRM project to connect 9 legacy systems. Served as business analyst to ensure business rules and processes were maintained with a high level of security due to the nature of the data.
• Facilitated stakeholder needs as Product Owner on Scrum team. Duties included Scrum poker, sprint release testing, and daily stand up meetings. During this time we completed over 30 sprints (Agile development) resulting in full connectivity.

07/2008 - 01/2015

Sales Manager / Product Owner

NATIONWIDE BIWEEKLY ADMINISTRATION, INC.
• In 2009 I won the employee of the year award. Later I became the first outstanding leadership award recipient.
• Counselled the Scrum team on a daily basis project planning. Including Scrum poker, sprint release testing, and daily stand up meetings. During this time we had completed over 200 sprints (Agile development).
• Brainstormed with CEO and CFO to develop the project vision stay on budget.
• Project: Web IM Esign – Presented idea to reduce costs and increase revenue by creating our own internal software to produce electronic loan analysis quotes and electronic signature contracts. Promoted to Product Owner.
• Project: Customer Experience Management – I wanted to make data driven decisions so I created a budget that was approved to create the Customer Experience Management system that housed marketing, sales, and fed into the customer database. Communicated with 2 separate vendors and lead the internal team to accomplishing the project ahead of schedule.
• Project: Self-Enrollment System – Orchestrated the Scrum team to create a national enrollment system for customers to enroll into a biweekly payment program for individual loans.
